

Team Minutes of the Meeting

Date: August 7, 2026

Time Start: 8:36 AM

Time End: 9:24 AM

Link: [Record of the Meeting](#)

Attendees:

Meeting Facilitator: Charles Capagnan

Secretary: Gabrielle Calibo

List of Attendees:

1. Cristian Saldua
2. Sir Gonzalo Gumogda (**Adviser**)

Absent:

1. Patricia Marie Valera

Agenda

Item 1 – Architecture & C4 Diagrams Review

Discussion: The team provided an update to Sir Gonzalo on discussions held with the partnered group, presented current progress on GitHub, and reviewed the C4 Context and Container diagrams generated via PlantText.

Decision:

- Rename the backend integration service in the C4 Context diagram.
- Add static content components to the C4 Container diagram.
- Draft and visualize the partnered group's architecture independently without waiting for their deliverable.

Item 2 – Use Case Diagram Revision

Discussion: The team presented the Use Case diagram to Sir Gonzalo, covering functional flows for inquiries, user authentication, and organization management.

Decision:

- Replace the "Inquiries / IA" flow with an AI Chatbot feature.
- Connect the AI Chatbot directly to the NotifiEd web application to fetch data for student queries.
- Update user authentication handling to use the Microsoft platform.
- Refine the "Manage Organization" use case flow.

Item 3 – Research Paper Revision

Discussion: The team reviewed core paper sections with Sir Gonzalo, specifically the Statement of the Problem, Specific Objectives, and Scope and Limitations.

Decision:

- Rephrase Statement of the Problem #2.
- Update and align the Specific Objectives with recent project revisions.
- Revise and refine the Scope and Limitations section.

Next Steps

- Update and refine the Use Case Diagram based on the adviser's feedback.
- Revise the research paper sections (Statement of the Problem, Specific Objectives, Scope & Limitations).
- Draft the C4 model visualization for the partnered group's architecture.
